

DREAM INTERPRETING LIST.

Paste in the front of your dream journal. You can ask the questions of your pendulum, or just let the pendulum take you to each relevant question.

- Is the whole dream relevant, or just a section? Paragraph? Word?
(check to make sure there is more than one 'section' – as one long dream can be many differing messages, from differing sources).
- Symbolic?
- Literal?
- Active? – something I must do
- Passive? – information? Inspiration?
- Integrative? – something I must change
- About a person? Place? Thing?
- Animal – vegetable – mineral metal/stone/crystal
- Karma?
- Prophetic? OR Now?
- Nutrition or ascension health? – something I must do/eat/invoke?
- World Service work?
- Will knowing the communing source help?
(Terra? – Nature guide? – Elemental Aurora Force? – guardians? One source? – ancestors?)
- Is this a message for someone else? (if so, go within before sharing.. not all dreams pertaining to others is for them)
- Can drawing some tarot cards help with understanding ? (shuffle, and pendulum how many .. then pendulum your way around what is revealed).
- Have I understood this dream? (if no – then if you are using the earthmother tarot regularly, if there is work to do, you will be referred back to these dreams.)
